

SOLUTION SHEET

Transform Your Telecom Management

Maximize your team's productivity and optimize your entire telecom estate with a comprehensive telecom management solution.

▶ Visualize Your Network

Oversee your entire global telecommunications network from a single platform no matter where you or your assets are in the world.

- Normalize and standardize your vendor information
- Quickly access accurate location and network plan data
- Configure your analytics to visualize your data

▶ Analyze Your Inventory

Manage the entire lifecycle of your telecom inventory from ordering and procurement to invoice management and payment.

- Access granular usage data and track renewal dates
- Compare and rectify discrepancies in vendor inventory data
- Expose inefficiencies and cost savings opportunities

▶ Control Your Estate

Maintain efficiency and cost optimization across your entire telecom network.

- Streamline invoice and dispute management
- Benchmark against industry pricing
- Negotiate contract renewals for better terms and conditions

▶ Unlock Complete Telecom Optimization

Inventory Management

Keep accurate records and track telecom assets effortlessly with seamless IT service management integrations.

Quote & Order Management

Manage telecom orders from quotes to delivery, negotiating pricing and tracking all stages within a unified platform.

Wireline eBonding

Automate data exchange between telecom systems to enhance efficiency, reduce costs, and improve customer experience.

Invoice Management

Simplify invoice tracking, automate receipts, validate invoices, and streamline bill payments with ease.

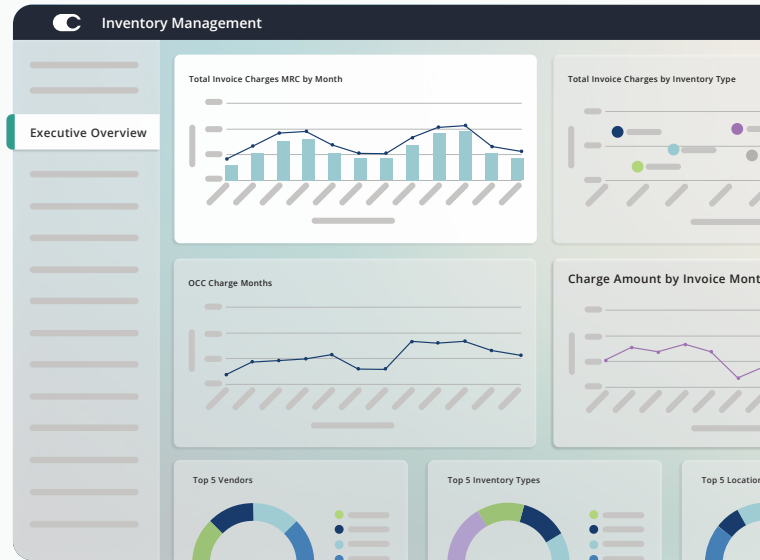

Telecom Auditing

Uncover cost-saving opportunities through automated dispute management, usage optimization, and benchmarking.

► Powerful Analytics

Leverage Calero’s all-in-one platform to manage your telecom and technology spend, harness rich data and usage patterns, and create customizable, self-service analytics dashboards for actionable insights.

- Access granular usage and cost allocation data
- Quickly access asset and service inventory
- Configure your dashboards to visualize your data

► Why Calero

Increase efficiency and savings with a partner that provides the fastest time to value managed technology solution on the market. See why we are trusted to manage over \$25 billion in technology spend by more than 3,000 clients across the globe.

Continued Innovation

We continually reinvest resources to offer the best managed technology solution to our customers.

Complete Lifecycle Management

We are committed to giving you complete technology lifecycle management so that you can fully optimize your estate throughout your entire digital transformation process.

Unmatched Global Support

Manage technology with confidence knowing you have the support of an in-house team of experts to help you.

“ The platform has allowed us to organize our many telecom accounts and gives us the reports and analytics to better manage, consolidate, or even cancel services. We are very happy with Calero.com and the service we receive from the team.”

- Joyce Ritzert, CFO, Faneuil
